New - Advanced Climate Control System

CLIMA-TECH®

Designed for Durability Built for Performance

Clima-Tech is not just another HVAC controller—**it's a mission-critical system designed to minimize downtime, increase efficiency, and improve cabin comfort.**

Adaptive Display Technology

A/C Mode Vent Mode Heat Mode

Changes color to indicate current mode and function.

What Makes Clima-Tech Different?

Smart System Warnings

Warnings alert you to potential failures.

Real-Time Information

Provides instant performance insights for fast troubleshooting.

System Diagnostics

Detects failures to protect critical components.

Optimized Energy Consumption

Maintains temperature effectively to reduce energy use.

SimplicityAir

Innovative Climate Solutions

New **- Advanced Climate Control System**

Standard Features for Effortless Control

- **Easy-to-Operate Silicone Buttons & Knobs** – Intuitive user interface
- **Adjustable Units of Operation** – Customize settings for precise control
- **Automatic Climate Control** – Smart temperature regulation
- **Manual Mode Option** – Full user control when needed
- **CAN Bus Communication** – Seamless integration with vehicle systems

Flexible Software for Any Component and Any Option

- **E-Breeze Engine-Off Climate Control** – Maintain cabin temperature without idling
- **Shore-Power Connection** – Support E-Breeze with external power
- **Fuel-Fired Heater Solution** – Efficient heating without engine operation
- **Blaze Series PTC Heater Assembly** – Shore-power-supported electric heating
